

Since 1987, HALO-Flight, Inc., a non-profit helicopter, air-ambulance emergency medical service, has provided life-saving service to over 18,000 people who were victims of roadside accidents, snake bites and medical maladies.

Our professional team of skilled and veteran pilots, critical care experienced Registered Nurses and critical care Paramedics, with a collective experience of over 10 years in emergency medicine; coupled with a fleet of 4 Bell helicopters boasting state-of-the-art, in-flight emergency care equipment operate out of three bases:

- Corpus Christi
- Alice
- Beeville

HALO-Flight covers the 26 counties of the Coastal Bend and South Texas via 911-dispatch, and provides medical transport and patient transfer across the state, and partners with healthcare providers and professionals such as Driscoll Children’s Hospital and CHRISTUS Spohn Health System for patient stabilization or treatment.

As a non-profit organization, HALO-Flight seeks additional community support in several ways including our Guardian Subscription Plan. The Plan features three types of Membership:

- Individual \$35 annually per household
- Business Rates are per employee/family per year based on the size of your Business\*
- Ranch \$35 per employee/family per year + \$35 per guest per year.

Joining the Membership Plan offers the following:

- Insured enrolled Members are charged no out-of-pocket expenses for HALO-Flight transports deemed medically necessary. Individuals flown with no insurance coverage are provided a 50% discount on services.
- Service extends to anywhere in our 26-county service area, for patient transfers outside our service area, and with our reciprocal partner: Dallas CareFlite.
- Membership benefits are for all family members who live in the same household, and are listed on the application (Includes dependent children, custodial, and non-custodial children).

The **Ranch Plan** is unique in that it is the only Plan not requiring a launch by a First Responder. HALO-Flight staff works with the property owner or manager to establish a landing zone on the property provided the destination meets 911-dispatch protocols. Each Ranch Plan is tailored to meet the needs of the Rancher or property owner and covers the employee/family household both on and off the Ranch.

The **Individual Plan** covers Members anywhere service is requested by a First Responder or by a healthcare provider; but does not include the tailored landing zone component mentioned above.

Members are invited to join via our website at <https://haloflight.org/guardian-plan/>.

Individual Members are often contacted via email, including a 45-day-in-advance email reminder their renewal is coming up and featuring a RENEW NOW click button to facilitate the transaction.

The **Business Plan** enables employers to reduce additional out-of-pocket expenses not covered by insurance if their employees are flown by HALO-Flight during an emergency, accident or illness.

Rates are based on business size and are as follows:

*Small Business:	2-50	\$20 per year per employee + their family at residence
Medium Business:	51-100	\$18 per year per employee + their family at residence
Large Business:	100+	\$15 per year per employee + their family at residence
